

Constellation

STRATEGIC ACCOUNT OS

EXECUTIVE PROPOSAL NARRATIVE

Constellation CRM

Strategic Account OS for enterprise revenue teams

Constellation turns CRM from a passive activity record into a guided operating system for account strategy, signal-driven execution, proposal generation, and leadership inspection.

Plan

Shared account strategy
connected to CRM
context

Act

Campaigns, sequences,
and tasks from live
signals

Package

Customer-ready
proposals, pricing, ROI,
and proof

Proposal focus for Stark Logistics

Activate a focused strategic account pilot that gives leaders operating visibility, helps account owners respond to market triggers, and packages the commercial story into credible customer-ready materials.
