STRATEGIC ACCOUNT OS

CONSTELLATION CRM

Strategic Account OS

for enterprise revenue teams

A proposal-ready operating system that connects account planning, signal intelligence, coordinated outreach, customer-facing proposal assets, and investment review in one guided CRM workflow.

VISIBILITY

Command

Leadership sees priority accounts, pursuits, blockers, and next steps from one workspace.

TIMING

Cognito

Market signals become account-plan updates, campaigns, sequences, and relevant messaging.

OUTCOME

From system of record to system of action

Constellation turns strategic account work into repeatable execution, stronger alignment, and cleaner proposal motion.
