STRATEGIC ACCOUNT OS

LEADERSHIP OPERATING VIEW

Command Center

The Command Center gives executives, managers, and account owners a live view of strategic account health, pursuit progress, and work that needs attention.

Priority accounts

Surface named accounts, open pursuits, recent movement, and current owner actions.

Pipeline accountability

Tie stage movement, committed revenue, proposal readiness, and next meetings to real account context.

Coaching moments

Spot stale work, missing stakeholders, neglected signals, and executive support needs before a deal stalls.

Operating rhythm

Replace static forecast notes with a repeatable weekly account review workspace.
