STRATEGIC ACCOUNT OS

TIMELY ACCOUNT ACTION

Cognito Signal Intelligence

Cognito monitors account and market context, then helps the revenue team turn external change into internal action.

DETECT

Signals that matter

Expansion news, executive changes, initiative launches, renewal windows, competitive motion, and account-risk moments.

ACTIVATE

Workflow-ready context

Signals can feed account plans, campaigns, sequence steps, tasks, and proposal narratives while the moment is fresh.

Demo storyline

- Cognito identifies a logistics expansion trigger.
- The account owner updates the pursuit thesis and target stakeholders.
- Campaigns and Sequences coordinate outreach to the buying committee.
- Proposal Studio packages the resulting strategy, pricing, proof, and implementation plan.
